CONSTRUCTION ALERT

West Lake Sammamish Parkway: Multipurpose Path and Water Main Replacement Project

Description

To improve safety for people walking, biking and driving, the Bellevue Transportation Department plans the following roadway improvements between the Northeast 200 block and the Northeast 800 block of West Lake Sammamish Parkway:

- Build an 8 to 10-foot wide multipurpose path on the west side.
- Pave existing 10-foot wide travel lanes and a 4-foot shoulder on the east side.
- Install new lighting, landscaping, irrigation and storm drainage.

These improvements will be coordinated with two Utilities Department projects that will:

- Replace two miles of water main and about a third of a mile of pressurized sewer pipe between the Southeast 1900 block and Northeast 800 block.
- Improve water pressure to certain homes along West Lake Sammamish Parkway.

What to expect and when

Construction on the multipurpose path and associated improvements is anticipated to begin spring 2020 and be complete by winter 2021. The construction schedule is subject to change and some work is weather dependent.

- **Work hours:** 7 a.m. to 6 p.m., Monday – Friday.
- **Road Closure/Detour:** Southbound traffic will be detoured at NE 24th Street to 173rd Avenue SE. Local access will be maintained throughout construction.

- **Traffic control:** Northbound traffic will be detoured along West Lake Sammamish Parkway
- **Pedestrian Access:** Pedestrian access will be provided by a temporary 5-foot wide trail. Bicycle traffic is encouraged to use the roadway detour route.

For your safety

Thank you for your patience during construction and for doing your part to be safe near the work zone.

Funding

Project funding comes from the Capital Investment and Water Main Replacement programs. Estimated construction cost is \$13.1 million.
