

# Traffic Analysis Report 2020-011

## Killarney Way north of SE 25th Street

November 2020

Thank you for contacting the City of Bellevue with your concerns about vehicle speeds on Killarney Way.

After conducting a field review and speed and volume studies, we have compiled the data and our recommendations into this Traffic Analysis Report.

Please review the summary of findings and our recommendations on the next pages.

You specifically were concerned about vehicle speeds on Killarney Way. To address this concern, you suggested speed bumps and a radar feedback speed sign.

### Our findings include:

- Based on the recorded speed and volumes on the street, we do not recommend moving forward with physical measures, such as speed bumps.
- The City of Bellevue has a radar feedback speed sign program in which proposed locations are ranked based on roadway characteristics including speeds, traffic volumes, reported collisions, existing traffic calming measures, and walkability. These characteristics are analyzed to help determine the ranking of requested locations amongst other

candidate locations. Projects are selected based on the ranking of the location and available resources for new projects every two years. We have added Killarney Way to our stationary radar sign candidate location list, and it will be analyzed during our next review period.

- We recommend you utilize our yard signs or radar dolly to help encourage motorists to respect the speed limit. We encourage you to speak with your neighbors about the included education program recommendations. If you and your neighbors would like to move forward with these programs, please contact me at [lglas@bellevuewa.gov](mailto:lglas@bellevuewa.gov) or at 425-452-2841.

# Summary of Findings

Below is a summary of the data we collected on Killarney Way north of SE 25th Street 8/28/2020 to 9/3/2020.

## Road Characteristics

Killarney Way is a residential street approximately 19 ft wide.

## Residential Street

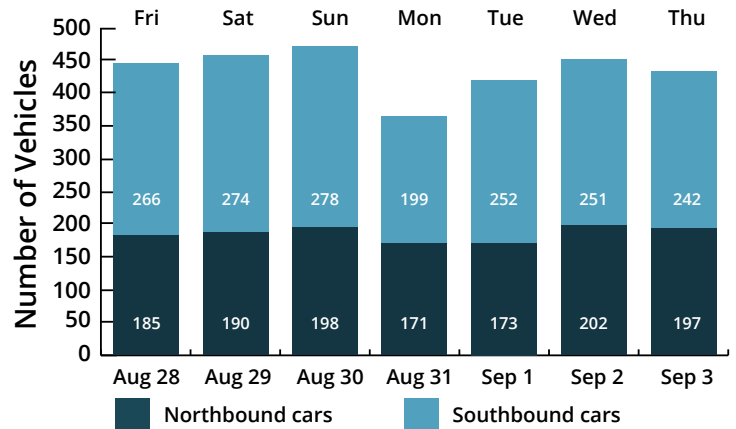

Killarney Way is a residential street in West Bellevue with a speed limit of 25 mph.

## Daily Traffic

The mid-week daily average traffic on Killarney Way is 439 cars per day. Mid-week average includes data between Tuesday and Thursday for both directions of travel.

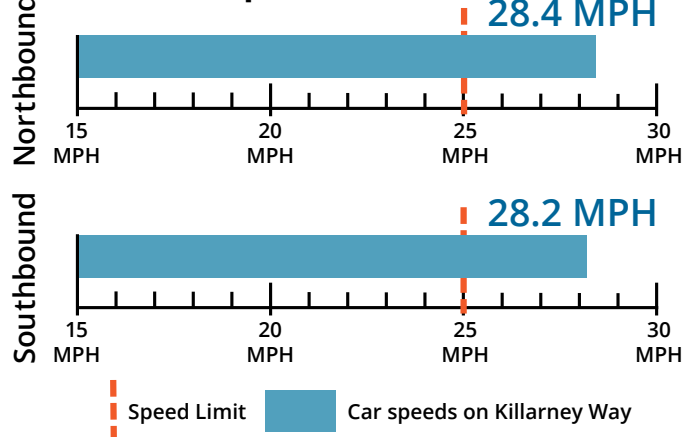

## Traffic Volume by Day (2020)

## Speed Study

When measuring vehicle speed, we use a metric called the 85th percentile speed. This speed, shown to the right, represents the speed at which 85% of all vehicles recorded are traveling at or below during our speed study.

## Vehicle Speed (2020)

## Collision History

A three-year collision study was conducted on Killarney Way and SE 25th Street.

**FINDINGS:** There was one collision in the 2400 block of Killarney Way. This involved the mirror of an oversized truck traveling southbound striking the open edge of a vehicle door parked on the west side of Killarney Way.

# Summary of Recommendations

Below are our recommendations for Killarney Way north of SE 25th Street based on the field reviews, data collection, and analysis. More detail on these recommendations are outlined in the Residential Traffic Guidebook ([BellevueWA.gov/ResidentialTrafficGuidebook](http://BellevueWA.gov/ResidentialTrafficGuidebook)). By educating the community and encouraging safe driving, we can begin to change driver behavior and reduce vehicle speeds.

**Educate the Community**

**Reduce Excessive Vehicle Speeds**

**Improve Pedestrian and Bicycle Safety**

## Traffic Safety Yard Signs

This program involves lending communities portable signs that encourage motorists to respect the neighborhood, drive responsibly, and drive 25 mph.

To request signs, go to [BellevueWA.gov/YardSigns](http://BellevueWA.gov/YardSigns) or call 425-452-6457

## Radar Dolly

You can borrow and place a radar dolly on your street for up to two weeks. This unit gives motorists feedback on the speed at which they are driving on a digital reader board, encouraging them to obey the speed limit. Should you like to borrow the radar dolly, please request it by calling 425-452-6457 or sign up on [BellevueWA.gov/RadarDolly](http://BellevueWA.gov/RadarDolly). Once we receive a request, city staff will contact you to make arrangements for both the drop-off and pick-up of the radar dolly at your home.

## Vision Zero

Bellevue's Vision Zero initiative reflects the city's commitment to reduce traffic deaths and serious injury

collisions on city streets to zero by the year 2030. In 2015, the city council passed a resolution providing a framework to achieve this goal. It states "the life, safety and health of residents, employees and visitors to Bellevue is the city council's highest priority."

**By participating in one of the recommendations, previous page, you are helping the City of Bellevue in our efforts to make our streets safer for everyone.**

## More Information

Find out more about these recommendations in our Residential Traffic Guidebook or by visiting the Neighborhood Traffic Safety Services website.
