Q1 How familiar are you with the Intersection Studies on 156th Ave SE (check all that apply) **This is the first time I've been involved with the study**

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

A 4 way stop is not working here any longer, obviously.

When thinking about congestion, you have it from the schools. Most traffic will be going south and east for pick up and drop off. Then the opposite direction after drop off and after pick up.

I believe the easiest way to protect the children crossing while maintaining a flow of traffic is to include a stop light so there's a steady flow of traffic in either direction. There will no longer be hesitation on who goes next in the 4-way stop queue.

Page 4: 156th Avenue SE/SE 16th Street intersection

Q3 Do you have any comments on this intersection?

This works well, especially for the families that attend Tillicum MS from the western Lake Hills neighborhoods. The added concrete and notifications will signal to people to be careful during peak hours. Since there's a lack of lighting here during the night, the stamped concrete would work well to signal intersection as well to prevent fast driving near intersection.

Page 5: 156th Avenue SE/SE 24th Street/SE 22nd Place intersection

Q4 Do you have any comments on this intersection?

Makes sense. It is a bit perplexing but I'm not sure what more I can provide than that.

Q1 How familiar are you with the Intersection Studies on 156th Ave SE (check all that apply) **I've seen posts on neighborhood social media sites**

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

Agree with removing island if it means two lanes of advancing cars can move forward. The main traffic delay is along 156th, NOT Lake Hills Blvd.

Traffic signal could help if it helps sustain a continued flow along 156th and the Lake Hills Blvd traffic flow is kept short. The 156th traffic is much more significant.

Page 4: 156th Avenue SE/SE 16th Street intersection

Q3 Do you have any comments on this intersection?

Perfect!

Page 5: 156th Avenue SE/SE 24th Street/SE 22nd Place intersection

Q4 Do you have any comments on this intersection?

THIS IS FANTASTIC! I live 1 minute from this stop and am both a pedestrian walking a dog and car driver around this area. The improvements are great.

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

I think a traffic light will destroy the neighborhood feel. I think having a four way stop is a good thing as it slows down traffic.

Page 4: 156th Avenue SE/SE 16th Street intersection

Q3 Do you have any comments on this intersection? **Respondent skipped this question**

Page 5: 156th Avenue SE/SE 24th Street/SE 22nd Place intersection

Q4 Do you have any comments on this intersection?

None. I use this intersection a lot and don't mind the delay.

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

It is the busiest intersection. Improving traffic congestion at 156th and main street will help divert a lot of traffic to 148th. Signals at main and 148th intersection take a lot of time to open. Also the speed limit along 156th till main and right turn to 148th could be 35mph.

Page 4: 156th Avenue SE/SE 16th Street intersection

Q3 Do you have any comments on this intersection?

Good recommendations. It is one of the darkest stretches on 156th

Page 5: 156th Avenue SE/SE 24th Street/SE 22nd Place intersection

Q4 Do you have any comments on this intersection? **Respondent skipped this question**

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

This intersection becomes confusing because there are often people (especially kids) who need to cross the street. That confuses cars as to who's turn it is and it seems quite dangerous for the kids as well as some cars don't give them the right of way. I feel a stoplight would speed things up for cars, but would also make it much safer for the kids who need to cross as well.

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

The traffic is coming from Redmond to go south through the neighborhoods to avoid traffic on 405. The only way to fix the problems is to fix the traffic on 405. If you add a traffic light here, it will encourage additional people to take these routes and make our neighborhood streets less safe for our families. Leave as is, don't remove the island, don't add a traffic signal. Reduce the speed limit on all of 156th to 25 mph.

Page 4: 156th Avenue SE/SE 16th Street intersection

Q3 Do you have any comments on this intersection?

Agree with all proposed alternatives. Reduce speed limit to 25. Add additional enforcement.

Page 5: 156th Avenue SE/SE 24th Street/SE 22nd Place intersection

Q4 Do you have any comments on this intersection?

Agree with all proposed alternatives.

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

It is a very unpleasant intersection for pedestrians and cyclists even in a broad daylight. It's a pure nightmare in the dusk and proper darkness. Three schools, a library and Samena club are in the vicinity, hence a lot of children that are at the most risk while crossing in poor light.

Page 4: 156th Avenue SE/SE 16th Street intersection

Q1 How familiar are you with the Intersection Studies on 156th Ave SE (check all that apply) **I've seen posts on neighborhood social media sites**

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

I have experienced the long wait behind cars turning right

Page 4: 156th Avenue SE/SE 16th Street intersection

Q3 Do you have any comments on this intersection?

Crosswalk should have blinking lights for pedestrians crossing street

Page 5: 156th Avenue SE/SE 24th Street/SE 22nd Place intersection

Q4 Do you have any comments on this intersection?

The 5-way intersection is confusing and results in delays. Also not safe for pedestrians

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

During rush hours, installing traffic signal will increase the throughput of transit traffic (between Microsoft and I-90, etc). However, that will attract move traffic from other areas (148th Ave SE, etc), so eventually the congestion may stay as it was before. Obviously, long term solution for commute (when new Microsoft buildings will open) is to switch to carpooling, public transportation and future light rail, otherwise thousands of single-occupant cars will spend too much time on 156th street.

I'm more concerned of the impact of new traffic signals outside of rush hours. If with stop signs drivers are slowing down before intersection, with green/yellow light they will run on the highest allowable speed through the intersection. That will impact pedestrians safety and will negatively impact residential area, which was not intended for high speed traffic originally. So, outside of rush hours, stop signs are going positive thing to throttle high speed traffic.

Q1 How familiar are you with the Intersection Studies on 156th Ave SE (check all that apply) **This is the first time I've been involved with the study**

Page 3: 156th Avenue SE/Lake Hills Boulevard intersection

Q2 Do you have any comments on this intersection?

A signal would be great and make pedestrian crossing more straightforward. With the library and 2 schools so close, many kids walk through these crosswalks and currently need to negotiate with cars to safely cross. A walk signal would be much easier to navigate.

Page 4: 156th Avenue SE/SE 16th Street intersection

Q3 Do you have any comments on this intersection?

The corner where the concrete walk is being planned (in this drawing) floods very often. The ditch is at capacity on our rainiest days and tends to overflow when it's very rainy for more than a few days. This might be something to consider fixing before installing a new walkway.

Page 5: 156th Avenue SE/SE 24th Street/SE 22nd Place intersection

Q4 Do you have any comments on this intersection?

This looks great! The beacon is an excellent addition and extending the concrete walkway (that just pretty much ends currently) to cross where the beacons are will be a great improvement!
