

Bellevue Transit Master Plan

***Bellevue Chamber of Commerce
February 12, 2013***

“Livability means being able to take your kids to school, go to work, see a doctor, drop by the grocery or Post Office, go out to dinner and a movie, and play with your kids at the park – all without having to get in your car.”

- Ray LaHood, United States Secretary of Transportation

“There’s extreme competition for talent, so it’s recruitment, retention. What you’ve got in downtown Bellevue is a critical mass. You’ve got housing, you’ve got restaurants, you’ve got retail, and **you’ve got transit.”**

- Steve Schwartz, Director, Jones Lang LaSalle (The Seattle Times, 1/14/13)

“Support planned growth and development in Bellevue with a **bold transit vision** that encourages long-term ridership growth.”

- Bellevue City Council, Project Principles (Approved July 9, 2012)

Trade-Offs

When we invest in transit, we have to make choices. Here are a few tough choices on which we'd like your opinion.

Should investments focus on peak period commuter service, or on building a network that runs all-day?

1. Priority is Peak Service

9. Priority is All-Day
(evening and weekend service)

During peak commute, should we focus on running direct service from many places to each commute destination, or can we ask people to transfer?

1. Avoid Transfers

9. Encourage Transfers

Should we focus more on investments that make service more attractive to higher end markets or focus on making service as abundant as possible?

1. Premium Service

9. Abundant Service

How close to a home or job is close enough to count as being served (assuming decent sidewalks and service worth walking to)?

1. 0
2. $\frac{1}{4}$ mile (Main to 4th Street)
3. $\frac{1}{2}$ mile (Main to 8th Street)
4. $\frac{3}{4}$ mile (Main to 12th Street)
5. 1 mile

What % of the population is it OK not to serve?

1. 0%
2. 5%
3. 10%
4. 15%
5. 20%
6. 25%
7. 30%
8. 35%
9. 40%
